

For bkhack, we use Melange as our main JSOO compiler. It's important to understand what went into this decision-making.

In ML, *JSOO (JavaScript Of OCaml)* compilers are a class of compilers responsible for realizing OCaml as a target output for the browser platform. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua quaerat voluptatem. Ut enim aequae doleamus animo, cum corpore dolemus, fieri tamen permagna accessio potest, si aliquod aeternum et infinitum impendere malum nobis opinemur. Quod idem licet transferre in voluptatem, ut.

Js_of_ocaml is the most mature and popular JSOO compiler. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua quaerat voluptatem. Ut enim aequae doleamus animo, cum corpore dolemus, fieri tamen permagna accessio potest, si aliquod aeternum et infinitum impendere. Dune multiplatform.

The Melange compiler is the more recent addition JSOO compiler. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua quaerat. It is easier to use, the binding to JS FFI is more ergonomic. But Dune usage is disparate and modal.
